

Discover the World

March 14, 2006

To All Trade Councils:

I am pleased to advise that new Tetra Pak filling capacity will soon be available in Ontario, to package wine from Ontario and around the world.

A number of suppliers have advised the LCBO that they are interested in offering products in this format but are unable to do so because of a lack of available packaging capacity. In response, the LCBO has been working to facilitate the creation of such capacity in Ontario, so that our suppliers can offer even more choice in this popular and environmentally-friendly package format.

The LCBO continues to encourage suppliers to bring forward products in alternative package formats that generate less waste, as part of our plan to eliminate 10 million kilograms of waste annually.

For more information regarding the LCBO's product needs please contact the LCBO's Wines and Vintages business units as you would for or any other new product proposal.

For more information on LCBO's policies and procedures regarding the use of these facilities for packaging products approved for purchase by the LCBO, please contact Lyle Clarke, Project Leader, LCBO Environmental Strategy at (416) 864-7718 or by e-mail at [lyle.clarke@lcbo.com](mailto:lyle.clarke@lcbo.com).

Contact information for the two Ontario companies that are establishing such facilities in Ontario are attached, for your information.

Best regards,

Bob Downey  
Senior Vice President  
Sales & Marketing
